

The Campbell High School Educational Foundation is a non-profit, tax deductible organization formed in 1995 by concerned parents who saw a need to bring the school and community together for the benefit of our students. The purpose of the Foundation is to provide supplemental funds to enhance the educational programs and student academic experience at Campbell. A major initiative is funding the Career Placement Resource Center, which has helped increase the student graduation rate by 20% over the past four years.

A great school requires not only excellent, committed administrators and teachers, but also an involved and enthusiastic community. We want our students to be proud of their Campbell education and their community. They are the leaders of tomorrow.

The majority of our budget is funded through this annual golf tournament and the Jonquil Jog sponsored by the City of Smyrna. Because the Campbell High School Educational Foundation is a non-profit, tax exempt 501 (c) (3) organization, your gifts will be tax deductible as allowed by law.

**"Please join me in supporting education in our community by sponsoring the Campbell High School Susan T. Pearson Memorial Golf Tournament! This is always a fantastic event that you won't want to miss. I look forward to seeing everyone there!"**

**- Mayor Derek Norton**
